IMPROVED RZ-5,5/AC VERTICAL AXIS MULCHER

PURPOSE:

The vertical axis shredders can be used for shredding corn-, sunflower stem by using robust shredding knives as well as for eradication of bushes and stubble-fields, meadow cleaning and suataining natural-protected areas.

SPECIFICATION:

Gross weight	kg	2800
Working width	mm	5500
Width in closed-up position (transportation and loading)	mm	2300 / 3000 narrowest / widest
Length (transportation and loading)	mm	5800
Height (transportation and loading)	mm	2350
No of rotors	pc	3
Rotor rotation	min	740
Inlet rotation	min	1000
No. of knives per rotor	pc	4
Recommended output	hp	130-200
Area performance	ha/h	4-8

BENEFITS OF APPLICATION:

- Built-in momentum limitation and freewheel
- Driving system with high burden capacity
- The side-wings can be closed up hydraulically
- The stubble-height can be adjusted hydraulically (mid-part) and mechanically (side-wings) (40-300 mm)
